

RF49A5202B1/LV French Door **Refrigerator with Water Dispenser**

Perfectly harmonious and stylish design

Modern Design

Give your home a stylishly integrated appearance. Its premium built-in design is both neat and modern, but won't look out of place with your existing appliances and cabinets. It also features strikingly beautiful flat doors and recessed handles, so they don't protrude and get in the way.

Moister, fresher natural tasting food

Twin Cooling Plus™

Ensure food stays moist and fresh for twice as long*. Twin Cooling Plus™ optimizes the temperature and humidity in the fridge and freezer with independent cooling. It preserves food in optimal conditions, with high humidity in the fridge, and protects its flavor by preventing odors mixing.

Seamless accessibility

Easy access control

Enjoy stylish, but easy control, even if you have restricted movement. The Easy access control enhances the minimalist design as it is discretely hidden inside. The controls are within arm's reach, even from a wheelchair, and usable with one hand, ensuring better accessibility for disabled people.
